Yuck... Who Burped?

Heath McKenzie

A hilarious sound book that will make kids—and kids at heart—giggle as thunderous belches go around the table

Summary

A large piggy family sat down to dine, but one of them couldn't help being a swine! Starting with Baby Pig, each spread works its way through another member of the Pig family as they each let out big boisterous belches. They are all a little embarrassed until Granny reminds them, "a burp is a sure sign you enjoyed your meal!"

Mommy Pig wished her boys

would not be so crass,

but soon felt herself face

a buildup of gas!

Daddy Pig tried to be

much more discreet,

but then belched out what smelled

When she was a child, Cassidy Pratt accidentally started a fire that killed her neighbor. At least, that's what she's been told. She can't remember anything from that day. She's pretty sure she didn't mean to do it. She's a victim too. But her town's bullies, particularly the cruel and beautiful Melody Davenport, have never let Fire Girl live it down. In Melody's eyes, Cassidy is a murderer and always will be.

And then Melody goes missing. Cassidy overheard what sounded like an abduction. She knows she should go to the cops, but... She recently joked about how much she'd like to get rid of Melody. She even planned out the perfect way to do it. It's up to Cassidy to figure out what really happened, because if she comes forward without a suspect, she knows people will point fingers at her. Again. And she can't let that happen.

But the truth behind Melody's disappearance will set the whole town in flames.

This is the absolutely true story of how Lansburg, Pennsylvania, was invaded by aliens. None of this story is false. At least...not according to Gideon Hofstadt.

Last fall, Lansburg, Pennsylvania, was invaded. Weeks of chaos followed. There were sightings of UFOs, close encounters, and even abductions. There were believers, Truth Seekers, and above all, people who looked to the sky and hoped for more. Only...there were no aliens.

Gideon Hofstadt knows the truth; after one of his science experiments went wrong, Gideon and his older brother blamed the resulting explosion on extraterrestrial activity. To their surprise, their lie was not only believed by the town...it was embraced.

As the brothers go to increasingly greater lengths to keep up the ruse to avoid getting caught, the hoax flourishes. But Gideon's obsession with their tale threatens his whole world. Can he find a way to banish the aliens before Lansburg, and his life, are changed forever?

But then Wash accepts the position as Chief Engineer on his father's magnum opus, the Brooklyn Bridge, and it changes both of their lives forever.

In Brooklyn, the happy home they'd dreamed of warps around the bridge. Incapacitated from working in the high-pressure tanks at the bridge's foundations, Wash convinces Emily to be his messenger to the site. Little by little, Emily finds herself taking over the project—with no formal training or education in math and science. Emily throws herself into building the bridge but faces suspicion and disparagement at every turn as she supervises dangerous construction sites and argues for the safety of the bridge amongst Manhattan's male elite.

Death in White Pyjamas / Death Knows No Calendar

John Bude, Martin Edwards

A country house murder and "locked room" mystery like no other, from famed golden age of crime fiction mystery writer John Bude

Summary

Death in White Pyjamas

At the country home of Sam Richardson, a group of actors have gathered along with their somewhat sinister producer Basil Barnes and a playwright whose star is rising in the theater scene. The drama isn't staying in the production, as competitive tension in the air begins to rise between the three actresses Clara, Angela and Deirdre. But nobody expects to find Deirdre's murdered body on the grounds wearing, for some unknown reason, white pyjamas...

An inspector Meredith mystery of the kind John Bude does best; a well-drawn and authentic period setting, and a satisfying mystery following the traditional rules and style of the golden age of the genre.

Death Knows No Calendar

The "locked-room" element of the mystery is simple: Lydia Arundel, a fairly wealthy painter, is found shot dead in her locked studio, with suicide seemingly impossible due to the position of the weapon. Many figures in the local village, Beckwood, have a motive for her murder: the Reverend, who seems to have had an affair with her; her husband, who inherits all her money; Hawkinge, who used to be in...

Contributor Bio

JOHN BUDE was the pseudonym of Ernest Elmore (1901?1957), an author of the golden age of crime fiction. Elmore was a cofounder of the Crime Writers' Association and worked in the theatre as a producer and director.

But when an act of kindness brings Zoey into Graham's world, she may just find there's more to the man than meets the eye...and more to love in Moose Springs than just the Alaskan wilderness.

For readers of *Labgirl* and Neil DeGrasse Tyson, *The Last Stargazers* combines the exciting travels of award-winning astronomer Emily Levesque with the misunderstood antics of a scrappy (and shrinking) crew of scientists working with stars and telescopes. The Kidnap Years

The Astonishing True History of the Forgotten Kidnapping Epidemic That Shook Depression-Era America

David Stout

Key Selling Points:

- **Gripping historical true crime narrative from a trusted author:** This riveting narrative from Edgar Award winning author David Stout is perfect for fans of *Killers of the Flower Moon*
- **Historical treasure trove touching on popular mysteries:** Explores further details behind well-known historical events and figures such as the Lindbergh baby kidnapping and J. Edgar Hoover
- **A must-read for history buffs:** The dramatic accounts of kidnappings were covered extensively in the media at the time but have since been lost to history will fascinate readers

Summary

This shocking, historical true crime account brings to light the illegal activity that many people engaged in to make a living during the Great Depression: kidnapping

The Great Depression was a time of incomparable financial desperation in America. Thugs with submachine guns and square-jawed G-men have long dominated the vernacular images of fear, lawlessness, and corruption set against the decimating poverty of that decade.

But little known are the many serial dramas that played out in homes and hideouts, courtrooms and cold cases across the country. In a time of panic, legal lethargy, corruption, and incompetence, there was one sure-fire means to make money, one that was seized upon by both criminals and resourceful civilians. Best of all, one likely to go unpunished: kidnapping.

Gritty, visceral, and thoughtfully reported, *The Kidnap Years* chronicles a forgotten time in America's history when the economic hardships of the Great Depression and the low legal risk of kidnapping led to a sweep of abductions that afflicted all corners of the country.

Motherhood So White

A Memoir of Race, Gender, and Parenting in America

Nefertiti Austin

A memoir of race, gender, and parenting in America — now in paperback!

Summary

In America, *Motherhood* = *white*. That's what Nefertiti, a single African American woman, discovered when she decided she wanted to adopt a Black baby boy out of the foster care system. She realized that American society saw motherhood through a white lens, and that there would be no easy understanding or acceptance of the kind of family she hoped to build.

Motherhood So White is the story of Nefertiti's fight to create the family she always knew she was meant to have and the story of motherhood that all American families need now. In this unflinching account of her parenting journey, Nefertiti examines the history of adoption in the African American community, takes on stereotypes of single, Black motherhood, and confronts the reality of raising children of color in racially charged, modern-day America.

Honest, vulnerable, and uplifting, *Motherhood So White* reveals what Nefertiti knew all along—that the only requirement for a successful family is one raised with love.

Contributor Bio

Author and memoirist NEFERTITI AUSTIN writes about the erasure of diverse voices in motherhood. Her work around this topic has been short-listed for literary awards and appeared in several publications. She was the subject of an article on race and adoption in *The Atlantic* and appeared on *HuffPost Live* and *One Bad Mother*. Nefertiti's expertise stems from firsthand experience and degrees in U.S. history and African American studies. She lives in Los Angeles, CA.

To be the best leader you can be, you need to understand one simple rule: your TEAM, not YOU, needs to be the STAR

Summary

One of the hardest parts of leadership is knowing how to step away from your hard-won authority and let others step forward. Dr. Karen Morley is here to help! She emphasizes that in an environment of continuing disruption (where innovation and creativity are crucial assets), a command-and-control method of leadership is destined to fail. However, leaders who are able to coach, rather than give orders or step in, will find themselves in the midst of a solutions-forward, creative-minded, team.

The Strangest Secret

How to Live the Life You Desire

Earl Nightingale

Discover the life-changing formula for success from the founder of personal development, Earl Nightingale

Summary

Earl's amazing message about the life-changing formula for success was first played for a group of salespeople at his insurance agency. Everyone was utterly electrified. Word of it spread like wildfire. Requests came pouring in—thousands per week. Within no time, more than 1,000,000 people had heard the message. Today, more than 65 years later, *The Strangest Secret* remains one of the most powerful and influential messages ever recorded.

Now in print, *The Strangest Secret* will help anyone in your organization get from where they are to where they want to be.

Contributor Bio

EARL NIGHTINGALE knew a thing or two about overcoming obstacles and conquering difficulties. And he had a unique gift for inspiring those around him to do the same. Born into a poor California family in 1921, Earl survived the meager years of the depression, joined the Marines at age seventeen, and was one of only twelve men to survive the Pearl Harbor bombing of the battleship USS Arizona.

Why Your Workplace Culture Should Look More Like a Video Game

Jamie Madigan

Make work FUN with lessons in engagement that game play can teach us ALL

Summary

Gamer and commentator Jamie Madigan's fresh and pertinent new book shows how business leaders can promote a culture of productivity and innovation using gaming techniques and psychology. Just as games teach players to navigate a virtual "world," bosses teach employees to navigate the workplace by solving problems, cooperating with colleagues, and setting long-term goals. The application of video games has the potential to eliminate dreary offices in favor of more stimulating-and ultimately, more profitable-work environments. Look no further to level up your team!

Parenting Bright Kids Who Struggle in School

A Strength-Based Approach to Helping Your Child Thrive and Succeed

Dewey Rosetti

Key Selling Points:

Simple, hands-on guide: Helps stressed parents grasp new and practical ways to help their child

Includes the most up-to-date methods: allows parents to take back control of a child's education

From established experts: Includes a curated menu of research-based approaches

Summary

Help children with learning differences take back control of their education!

Parenting Bright Kids Who Struggle in School guides parents through the challenging and often unfamiliar landscape of raising kids who have been labeled with learning differences, including dyslexia, ADHD, autism, sensory processing disorder, and more.

This book builds upon Harvard professor Todd Rose's groundbreaking research in the "Science of Individuality," in which an individual's unique profile of strengths and weaknesses is leveraged in order to help him or her live a fulfilling, successful life. By understanding their child's jagged profile, the context of learning, and multiple pathways, parents will learn revolutionary techniques to encourage their child's strengths and mitigate weaknesses through the strategies presented in "Parenting Bright Kids Who Struggle in School."

Parents will also discover how to manage the emotional fallout of raising a child who does not conform to the "average" model of learning so prevalent in the modern school system. Drawing from her own experience as a parent of a child with learning differences—who is now a highly successful adult—the author outlines clear lessons from a quarter century of advocating for kids who learn differently.

Contributor Bio

DEWEY ROSETTI is the cofounder of Parents Education Network (PEN), which aims to educate parents and teachers on the latest and most effective methods for helping children with learning differences succeed in school and in life. After more than 25 years of experience as an advocate for individualized learning techniques, Dewey partnered with Harvard professor and best-selling author Todd Rose to bring his revolutionary research in the "Science of Individuality" to parenting kids who learn differently.
